Severe Flooding Reported in our Companionship Diocese of Eswatini

Weeks of persistent rains have caused severe flooding in parts of Eswatini resulting in the loss of lives and homes. The damage to roads and infrastructure has made transportation dangerous and there is an increased danger from animals like crocodiles and hippos moving away from flooded rivers. There are reports at the following link: <https://swazidailynews.com/archives/6767>

We have reached out to the Diocese of Eswatini and will share any details of the situation and any specific needs that may arise as we receive them.

Please hold our Companions close in our thoughts and prayers during this time.

SEC Webinar: “Fit for Funding” Training 5 March at 1pm

Fit for Funding is a short course provided by Faith in Community Scotland which aims to help you:

- think through your fundraising plan
- identify funders that can support your work
- simplify the process of applying for and managing funding

The two hour course is primarily an introduction to the world of funding, funders’ jargon, priorities and outcomes. Equally, it is also a way to build connections with those from other charges doing similar work and a great way to build mutual support and your own networks as you navigate the funding process.

Whether you are brand new to projects and finding funding or have years of experience, our hope is that you will find something useful and share your wisdom with the group. This is an extended workshop programme of the session offered at some Net Zero Roadshow events.

The training workshop is provided by Allan Ramsay, Community Development Worker for Faith in Community Scotland.

To register please email Jack Nevin at jackn@scotland.anglican.org.
